

CAPITAL LINK FORUM- THE VOICE OF OUR YOUNG EXECUTIVES

LESSONS LEARNED FROM MR. GEORGE PROCOPIOU'S SUCCESS STORY

In the 11th Annual Capital Link Greek Shipping Forum, Mr. George Procopiou, Founder of Dynacom Tankers Management, Sea Traders and Dynagas, was honored for his longstanding achievements and contribution to the Greek and Global Shipping Industry, for his leadership and pioneering initiatives, as well as for his contribution to Greece through his support to numerous cultural and philanthropic endeavors. His speech has deeply inspired me and I would like to point out the three main key points that are worth taking into consideration:

- Success in business comes when someone deals with his everyday routine at work with the same appetite, as if he was doing his favorite hobby
- Success requires sacrifices but, looking back you will end up thinking that everything was worth it
- It is now time for former generations, having achieved their goals, to support the new generations to make their dreams come true, based on proper, experienced and strong foundations
